PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with 5+ years of experience transforming complex data into actionable insights that drive strategic decision-making. Strong background in data visualization, statistical modeling, and process automation. Adept at collaborating across teams to optimize performance, identify trends, and improve reporting accuracy. Passionate about delivering clarity through data.

WORK EXPERIENCES

Senior Data Analyst

New York, NY | 2022 – Present

- Led development of automated reporting pipelines, reducing manual reporting time by 45%.
- Built interactive dashboards used by executive teams to track KPIs across marketing and sales.
- Conducted deep-dive analyses that revealed customer churn patterns, improving retention strategies.
- Presented analytical findings to stakeholders with actionable recommendations on a monthly basis.

Data Analyst

Brooklyn, NY | 2019 – 2022

- Designed statistical models to forecast demand, increasing forecasting accuracy by 30%.
- Partnered with product and finance teams to define metrics, improve funnel tracking, and optimize conversion paths.
- Cleaned, structured, and analyzed large datasets for business intelligence reports.

EDUCATION

Bachelor of Science in Statistics

University of Rimberio
Graduated: 2018

Master of Science in Statistics

University of Rimberio
Graduated: 2020

CERTIFICATIONS & COURSES

- Advanced Data Analytics Certificate
- Intro to Machine Learning (Self-paced Course)
- Data Ethics & Privacy Fundamentals

PROJECTS

Customer Behavior Dashboard

Built an end-to-end dashboard that tracked real-time customer engagement and purchase behavior. Included cohort analysis, retention curves, and campaign impact metrics.

Sales Forecast Model

Developed time-series forecasting model using historical data to predict regional sales. Improved quarterly planning and reduced overstock by 20%.

Marketing Attribution Report

Developed a multi-touch attribution model for marketing teams, helping reduce cost per acquisition by 18% through smarter channel allocation.

Operations Efficiency Scorecard

Built a cross-functional scorecard integrating data from multiple departments to visualize performance drivers, helping reduce operational costs by 12%.
